

Parker Global Air Preparation System Lubricator

Mini Series Compact Series Standard Series

Features:

- Robust but lightweight aluminum construction
- Proportional oil delivery over a wide range of air flows
- Fingertip ratchet control for precise oil drip rate adjustment
- Fill from top under system pressure

Max. Polycarbonate Bowl: 250 psig
Max. Metal Bowl: 150 psig

Mini Series

Parker Global Air Preparation System Modular Ball Valve

Features:

- Provides shut off line pressure with a non-sticking 90° turn handle to prevent unauthorized adjustment
- When inlet pressure is turned off, the downstream air pressure vents through the exhaust port
- The padlock slide may be assembled on either side, but is a permanent assembly and may not be removed later

Ball Material: Chrome Plated Brass
Seal Material: PTFE
Body Material: Aluminum
Max. Supply Pressure: 250 psig
